## Frequently Asked Questions About YSASP

### 1. If I finish this contract, will I lose my license?

No. By completing this program's contract, you will avoid the 30-day license suspension and the \$300 fine that would be imposed for not completing the program. This does not apply if you have other pending charges that may lead to losing your license.

### 2. Is there a fee? When will I need to pay it?

There is a \$175 program fee that is due upon enrollment in YSASP. If you are unable to pay the entire fee or if you need a waived or reduced fee due to hardship, you must disclose your income to the YSASP Coordinator. The amount of the fee will need to be determined before taking part in this program.

### 3. What if I don't live in Windham County, or even in Vermont?

You may still participate in the program. Some cases will need to come back to Vermont, and some cases can/will be done remotely online via FaceTime, Google Meets, or other video conferencing. It is determined on a case-by-case basis.

### 4. What is a drug/alcohol health screening?

Our focus is on the health of our young people. The State of Vermont, together with the University of Vermont, worked to develop an evidence-based screening tool that is effective in helping to give a snapshot of a young person's substance use.

### 5. Where do I go to get the health screening done?

The health screening is now done online. The link to the online screening will be emailed to you. If you have issues gaining access to or using technology, please let the YSASP Coordinator know. She would be glad to help you with this.

### 6. What do I do if I am referred for a clinical assessment?

A clinical assessment (when recommended) must be completed by a licensed clinician. We have a licensed clinician here at Youth Services available to conduct assessments, or you may use a pre-approved licensed clinician of substance use of your choice. You are responsible for all fees associated with the assessment and obtaining authorization/pre-authorization from your health insurance carrier. Often, it will be covered by insurance.
